To Whom It May Concern:

I am writing this letter to strongly recommend Laurie Giesen as a wedding photographer. Her skill, professionalism and willingness to go the "extra mile" was much appreciated at our wedding.

The pictures turned out wonderful, both of the formal shots and the candid photos. She did an excellent job of getting the right shots while keeping a low profile. She was always able to be there to take a picture when needed, but at the same time was never obtrusive.

Her flexibility and willingness to make sure we were pleased with the content, quality, and value of her services, was above and beyond the call of duty. Laurie's combination of photographic skills and friendly personality will assure that at least the photography portion of your wedding will go smoothly.

Good luck,

Gwendolyn Holden
